WHAT WE HEARD ON NOVEMBER 19

Evolv sells when someone explains it.

"Oh, they have Evolv here."
Not "What's Evolv?"

Becca McCarthy, on what a partner location needs to sound like

EDUCATION CONVERTS

A class plus a conversation with the founder "crushes," because people are genuinely curious.

TRAINERS CARRY IT

Members trust their trainers. One lunch-and-learn with a gym's team could "move all the products."

A DIFFERENT ROUTE

Consumer outlets declined to feature Evolv's products, so Evolv stopped PR. Industry media is the open door.

THE MOMENT

Partners want a GLP-1 answer.
Evolv needs a channel to explain it.

GYMS, CLINICS AND EMPLOYERS

Looking for an answer

GLP-1s are changing what members, patients and employees ask for. Across our podcasts, news and events, more gyms are adding GLP-1 programs.

ONE TEAM

Podcasts, news and events your partners trust

EVOLV

Looking for a channel

Partners carry what their teams can explain. Evolv needs a credible way to educate partners at scale.
